

Northeaster – February 25, 2009
Letter to the Editor

On March 3rd DFL members will convene the 2009 precinct caucuses to elect delegates to the City Convention. These delegates are charged with endorsing DFL candidates for races ranging from the Board of Estimates and Taxation all the way up to the Mayoral race.

One particularly important race is the City Council race in Ward 1. As I go to caucus I am looking for a candidate who will create an atmosphere for new job growth and economic expansion; these are critical to the future stability of our City.

After spending considerable time canvassing the websites of the announced candidates I have come to discover that only Doron Clark has brought these issues to the forefront of his campaign. Not only has Doron Clark identified these needs; he has also taken the next step and provided a vision to accomplish this goal.

I encourage all liberals and progressives to show up on March 3rd to make a difference in the future direction of our city. But before you come, take the time to become an informed delegate. Our future is in our own hands.
